# **GunSu Steel Construction**

## **ABOUTUS**

- Being established in the turning field at first in 1985, our company added steel construction into its scope in 1997.
- 3000+ projects in Turkey and 4000+ projects abroad have been accomplished.
- Areas of activity; manufacturing of steel construction, aquapark's steel construction, load-bearing systems, steel roof and warehouse; shaping metals such as stainless.

## **ABOUTUS**

Having a production capacity as 8000 tonne steel construction per year.

• Making production at 4000 m<sup>2</sup> closed area.

Making production at 4300 m<sup>2</sup> opened area.

Plasma CNC Machine (3mx12m); Besides cutting of metal sheets between 6-30 mm, can be used for inclined cutting of tubular steel. 12 m long pipes can be connected and worm mouths can be opened on box profiles and pipes.

Laser Machine (2mx6m); Cutting of metal and stainless sheets between 2-20 mm.

Tube Bending Machine; We have 2 pipe bending machines. They are used for bending pipes between Ø 48 mm and Ø 140 mm.

Metal Pickling and Chamfering Machine; Reducing scraps from cut steels by using plasma and laser machines.

Combined Scissors Machine; used for perforation and canalization.

Combined Scissors Machine; used for perforation and canalization.

Laser Welding Machine; It is used for welding aluminum, steel and stainless parts up to 4 mm thick.

Gas Welding Machine; We have 24 gas welding machines.

a. Air Gas Welding Machine is used for welding railings, thin box profiles, thin pipes and thin sheets.

b. Aqueous Gas Welding Machine; It is used for welding all thick materials.

## VALUES FOR OUR PROJECTS

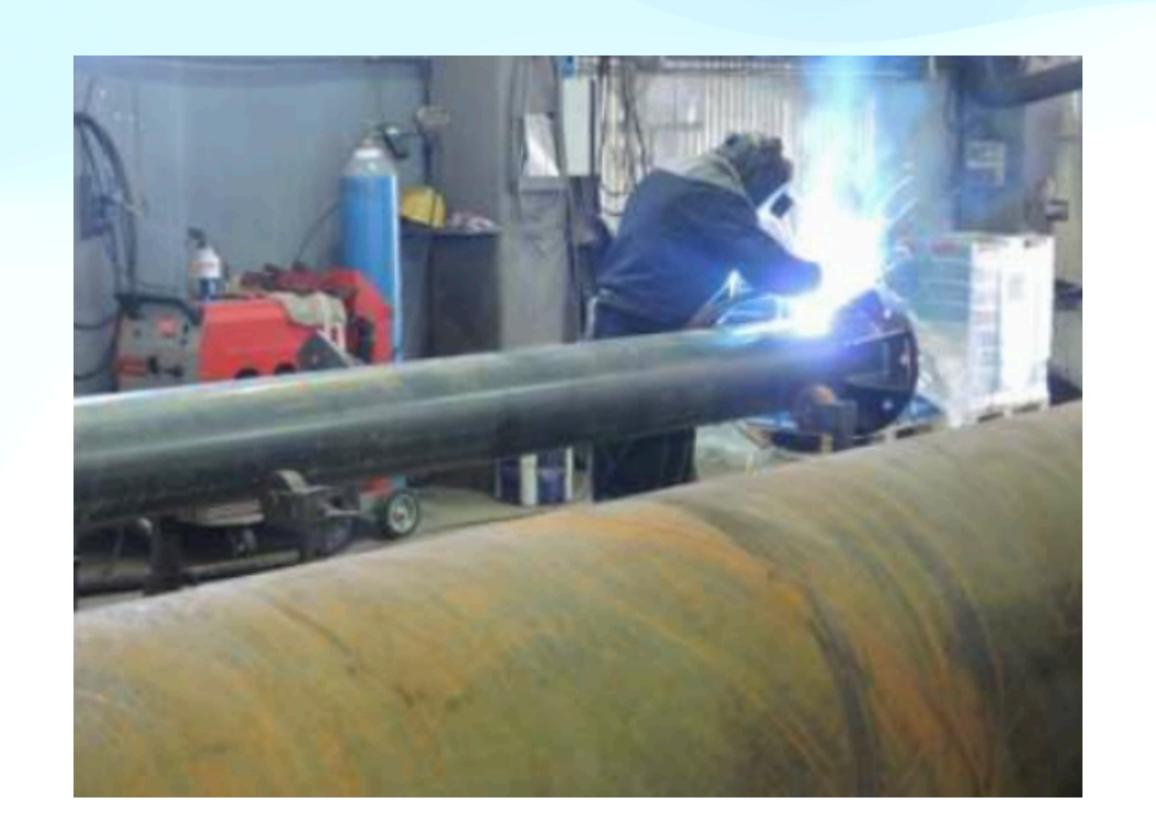

Obtention high quality and efficiency through the use of state-of-the-art technology in every step of the production process.

## VALUES FOR OUR PROJECTS

Ability to combine the talent of our team and suppliers with the power of technology, targeting a smooth and efficient production.

#### VALUES FOR OUR PROJECTS

Maximisation quality and efficiency; minimization the margin of error by regularly controlling production processes.
